
CapeCoralBarometer.com

Posted by admin - 2008/04/30 15:58

Greetings all.

Just wanted to inform everyone that, in addition to capecoralnews.net and fortmyersnews.net, this website can also now be accessed via the newly acquired domain name of www.CapeCoralBarometer.com.

According to our statistics software...many of you have been visiting our website and remembering it was called the Cape Coral Barometer, but not noticing our domain name didn't match our company name when you tried to make a return visit. Now all you need to do is type www.CapeCoralBarometer.com into your browser, and there we'll be.

We hope we've made ourselves easier to locate.

=====
